

Requirements Implemented:

Requirement ID: Charts-1

Description:

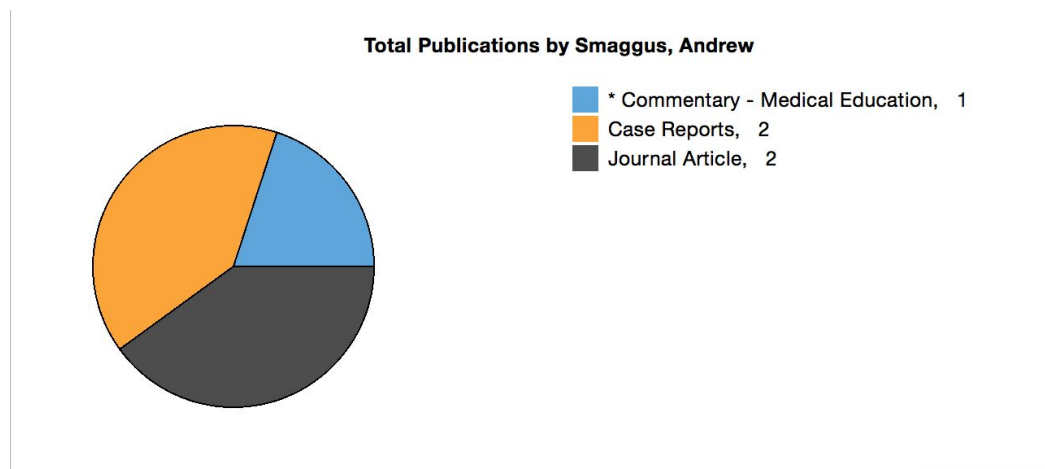

Improved overall appearance of the pie charts:

- Created a preset list of colors that work well together, improvement on the previous implementation of assigning colors at random
- Changed the outline of the pie chart from grey to black, looks sharper
- Moved the text which specifies amounts off the pie chart, now displayed after the label name

Origin:

Our group collectively was unhappy with the original appearance of the pie charts.

Requirement Type: Stretch

Requirement ID: Charts-2

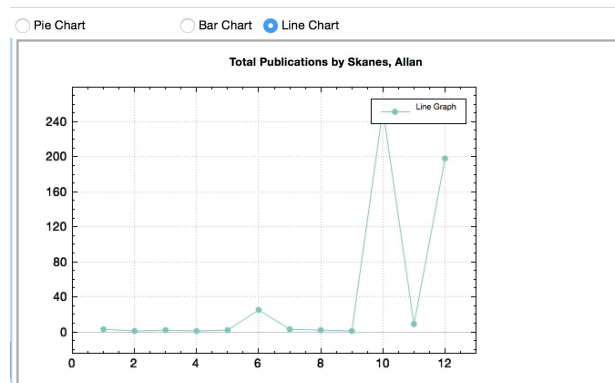

Description:

Added a option for displaying a simple line graph. Displays the data in line graph form. Basic functionality which can be improved upon later.

Origin:

Customer Specifications

Requirement Type: Mandatory

Requirement ID: ErrorEdit-1**Description:**

Added a find next button for the error edit dialog.

Basic functionality includes just a find next button that finds the next empty cell. Will be improved upon in a future deliverable to include a previous button.
